

Planning Party! Thinking about next semester:

- Helium reduction
- Carbon reduction goal- have renewable electricity by a certain time
- Recycling bins in more buildings
- Greenhouse planning/ garden for Vasudha
- Composting in greenhouse
- Work study position with Farmer's Market (Anasha's project)
- Figuring out sustained funding options- planning for sustainability fee implementation
- Energy reduction group- get liaison for each of building coordinators, more defined plan of action
- Water conservation project
- Get green chemistry started
- Recyclemania/ coordinate with building coordinators?
- Scavnet- create emailing list/ advertising
- See our input in '86 Field
- Show recycling video at UPAC cinema
- Sourcing local food for Sodexo
- Advertise recycling
- SSTF retreat
- Unite with other environmental groups on campus
- Ecotalk list- more people should participate; somehow have a conglomerated update email from all different clubs?
- Do something entertaining to advertise SSTF

Upcoming events:

- Addicted to Plastic movie showing with EcoLogic in the Vasudha Lounge
